# Businesses warned to lower prices from June 1

NATION

Monday, 28 May 2018

Reports by ZAZALI MUSA, MANJIT KAUR, RAHIMY RAHIM and CRYSTAL CHIAM SHIYING

PETALING JAYA: All registered businesses have been told to lower prices following the Government's move to zero-rate the Goods and Services Tax (GST) from June 1.

Customs director-general Datuk Seri T. Subromaniam said businesses must follow the ruling by passing down the 6% savings to consumers.

"We urge business operators not to exploit the Government's intention to lower prices of goods and services for consumers," he said in a statement.

# SQL Account Global Price Change

❖ Contact your dealer to get this  
application

# Step 1 : Select your group of item

**Select Data Range and Option :-**

Stock Group ☒ ACC

Category ☐

Customer Price ☐

Supplier Price ☐

Date Item Created ☐

☒ Print Stock Control Item

☒ Non-Stock Control Item

☒ Print Active Item

☒ In-Active Item

**Step 1**

☐ Customer Price

☐ Supplier Price

☐ Grid Mode

**3** Get Stock Items List

1. You can select on certain stock group/ category, if you want all items, then left stock group and category blank
2. You can also choose only active item
3. Once your group of item selected, click on Get Stock Items List

# Step 2 : Setting on value to be adjust

Step 2

**Rounding Method**

☒ Normal  
☐ Round Up  
☐ Round Down

Input Value: 1.0600  
Output Result: 1.0000  
Round Decimal: 2  
☐ 5 Cents Rounding...

**Output Value**

☐ Increase Value  
☒ Reduce Value  
☐ Fixed Value  
☐ Inclusive Rate

Mark down: 5.66%

Disc:   
Date From:   
Date To:

- Rounding Method (Assuming Round Decimal is 2)
  - Normal : Example : 0.1234 => 0.12
  - Round Up : Example : 0.1234 => 0.13
  - Round Down : Example : 0.1274 => 0.12
- Input Value = Sample Value
- Output Result = Sample Result
- Round decimal = No. of Decimal Point

- Mark down = 5.66 %
  - Why 5.66% instead of 6% ? Refer next slides

# Why reduce 5.66% instead 6% ?

---

30 May 2018 selling price = RM 106 GST Inclusive

01 June 2018 selling Price RM 106 – 5.66% = RM 100

**NOT**

RM 106 – 6% = RM 99.64

# Step 3 : Select fields to be update

**Step 3 : Select the Field(s) to be Update** [Elapsed Time: 00:00:03:896]

|                                                     |                                        |                                         |                                     |                                                           |                                        |
|-----------------------------------------------------|----------------------------------------|-----------------------------------------|-------------------------------------|-----------------------------------------------------------|----------------------------------------|
| <input checked="" type="checkbox"/> Reference Price | <input type="checkbox"/> Maximum Price | <input type="checkbox"/> Customer Price | <input type="checkbox"/> Cust. Disc | <input type="checkbox"/> Cust. Date From                  | <input type="checkbox"/> Cust. Date To |
| <input type="checkbox"/> Reference Cost             | <input type="checkbox"/> Minimum Cost  | <input type="checkbox"/> Supplier Price | <input type="checkbox"/> Supp. Disc | <input type="checkbox"/> Supp.. Date From                 | <input type="checkbox"/> Supp. Date To |
| <input type="checkbox"/> Minimum Price              | <input type="checkbox"/> Maximum Cost  |                                         |                                     | <input checked="" type="checkbox"/> Record Change History | <input type="button" value="Change"/>  |

- Tick on which option you want to adjust / update  
eg : Reference Price
- You can also tick Record change history then system will update this changes history in your note
- Once you complete setting, click on Change

## Step 4: Check & Post

|                                     | Code   | Description      |
|-------------------------------------|--------|------------------|
| <input checked="" type="checkbox"/> | 123    | 123              |
| <input checked="" type="checkbox"/> | ANT    | ANTENNA          |
| <input type="checkbox"/>            | BOMBOM | BOM of BOM       |
| <input type="checkbox"/>            | COVER  | HANDPHONE COVER  |
| <input checked="" type="checkbox"/> | E-BAT  | ERICSSON BATTERY |
| <input type="checkbox"/>            | FBM    | FBM              |
| Count = 15                          |        |                  |

---

| UOM     | Rate | Orig. Ref Price | Ref Price |
|---------|------|-----------------|-----------|
| UNIT    | 1    | 10.6            | 10        |
| CARTOON | 12   | 42.4            | 40        |
| BOX     | 60   | 106             | 100       |

 Post To A/c

➤ You can uncheck for certain item that you don't want to update

➤ Orig Ref Price = old price

➤ Ref Price = Price adjusted

➤ Click on Post to A/c then system will auto adjust all the value accordingly to Ref Price
