

SQL Account system build in report format will automatic detect your Tax Rate based on your invoice issued.

- if invoice issued on May it will be show GST @ 6%, invoice issued on June, it will be display GST @ 0%.
- D/O issue on May, transferred to Invoice and invoice date on June, then system will automatic detect and set your GST rate correctly.
- However, if your format customized previously, you can refer this guideline on how to change the script from GST @ 6% to GST 0% .

1) Click on your report name to enter into report designer page.
